Professional Summary

Software Engineer with a strong foundation in software development and problem solving. Experienced in building applications using modern programming languages and frameworks, with a focus on writing clean and maintainable code. Completed several personal and academic projects to demonstrate skills. Eager to contribute technical and problem solving skills while facing challenges through internships or entry-level roles.

Technical Skills: JavaScript, Java, Python, HTML, CSS, SQL, Spring Framework, Rest API, Debugging.

Tools and Platforms Skills: Git, Docker, VSCode, IntelliJ IDE, AWS Cloud, GitHub, GitLab, JUnit, MS Office Suite, Postman, EmailJS, Maven, Gradle, Node.js.

Known Concepts: Software Design Patterns, Agile Practices, CI/CD Pipelines, Data Structures and Algorithms, Object-Oriented Programming, Multithreading, Unit Testing, UI/UX Design, Database Management, Mobile Android Development, Full Stack Development.

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Time Management, Attention to Detail, Accountability, Conflict Resolution, Patience.

Projects Experience

Vacation Planner App

- Developed a mobile Vacation Planner application enabling users to create, update, and delete vacations and associated excursions, with full CRUD functionality and intuitive navigation between views.
- Implemented features for date management, alerts, and notifications, allowing users to set reminders for vacation and excursion dates with proper validation.
- Designed user-focused capabilities including data persistence, real-time updates, and sharing functionality, enabling users to organize trips efficiently and share vacation details across platforms.

Inventory Management System

- Developed an inventory management application using Java and the Spring Framework.
- Implemented full CRUD functionality (create, read, update, delete) for parts and products.
- Designed and integrated user input forms with validation and error handling to ensure data integrity.

To-do List Web Application

- Developed a task management web application using HTML, CSS, and JavaScript.
- Designed the application with a user-friendly interface and a clean layout.
- Implemented task creation and deletion functionality to support efficient task management.
- Built a reminder-based notification system to alert users of scheduled tasks.

Education

- Western Governors University.
Bachelor of Science in Software Engineering | Mar. 2026
- Year Up/ Seattle Central College.
Certificate in Application Development | Sept. 2024

Certifications

- WGU Back-end Developer | Feb. 5, 2026
- ITIL Foundation Certification in IT Service Management | Dec. 3, 2025 – Dec. 3, 2028
- AWS Certified Cloud Practitioner | Oct. 7, 2025 – Oct. 7, 2028
- WGU Front-end Developer | June 2, 2025
